<b>Office Action Summary</b>	<b>Application No.</b> 10/791,410	<b>Applicant(s)</b> SUN ET AL.	
	<b>Examiner</b> Timothy J. Henn	<b>Art Unit</b> 2622	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 17 February 2009.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments with respect to claims 17 and 18 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 17 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kim et al. (US 2003/0223008) in view of Kim et al. (US 7,423,689).

#### **[claim 17]**

4. Regarding claim 17, Kim '008 discloses an image sensing and processing unit, comprising: a signal processing device (Figure 2, Item 3); an image sensing device electrically connected to the signal processing device (Figure 2, Item 2), wherein the image sensing device is directly stacked on the signal processing device such that the image sensing device contacts the signal processing device (Figure 2); and a circuit board including a first flexible circuit board electrically connected to the signal processing device (Figure 2, Item 6). However, Kim '008 does not disclose a second flexible circuit board as claimed.

Art Unit: 2622

5. Kim '689 discloses a similar module including an image capture device (Figure 11), and further discloses the connection of both first and second flexible circuit boards (Figure 11, Items 118 and 200) so that the camera module may be connected to multiple items in different locations. Therefore, it would be obvious to include a second printed circuit board as claimed so that the image processing device and image sensing device could be electrically connected to multiple items in different locations as taught by Kim '689.

**[claim 18]**

6. Regarding claim 18, Kim '008 in view of Kim '689 shows that the image sensing device is connected to the second flexible circuit board (Figure 11). As broadly as claimed, this connection may be considered to be "disposed on" since there is a fixed connection between the image sensing device and the second flexible circuit board.

***Allowable Subject Matter***

7. Claims 1, 2, 5-9 and 12-16 are allowed.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy J. Henn whose telephone number is (571) 272-7310. The examiner can normally be reached on M-F 11-7.
